Karl Marx Selections On Daily Life by Peter Schendralis in Berkeley

By Peter Schendralis on Karl Marx, 1800s.

I. Karl Marx, 1800s

I mean in fact to be about materialist approaches to the world.

Be with capital.

Be also with Labour.

II. Schendralis’s comments

Marx means be with capital, but also labour.

Finally this means capital lives with labour and follows the same routine.

Live with capital and labour structuring each other.
